

COMP METRICA Spatial Reasoning Test

The **Spatial Reasoning Test** (TH-SPATIAL) measures a candidate's **COGNITIVE ABILITY**. The test questions are specifically associated with spatial perception, the ability to understand how various elements are organized in space. This test was developed, validated and standardized based on an adult population working in positions requiring mental operations that involve the manipulation of spatial information.

Description

- This test is composed of twenty-five (25) multiple choice questions.
- This test measures four (4) criteria associated with spatial perception.
- The criteria associated with spatial perception are: paper folding, visual comparison, composition of a surface and spatial orientation.

Targeted Clientele

Any organization that wishes to assess the cognitive ability based on a spatial reasoning of candidates working in manual labour positions.

Competency Assessed

Thinking Skills

1. Cognitive Ability

Conditions

Duration

- Thirty (30) minutes

Correction Time

- Paper-Pencil Administration: Two (2) business days
- Web Administration: Instant Report

Available Languages

- English
- French

Qualification Level

Level B :

- Be responsible for the assessment process of candidates in your organization (e.g., employed by the Human Resource Department or hold a senior management position)
- Work for a consulting firm specializing, among other things, in personnel assessment.

Spatial Reasoning Test – Version A

Candidate : John Smith Evaluation date: 2012/01/01

Explanation Note on the Type of Test

The Spatial Reasoning Test – Version A (TH-SPATIAL-A 11A) measures a candidate's COGNITIVE ABILITY. The test questions are specifically associated with spatial perception, the ability to understand how various elements are organized in space.

This test was developed, validated and standardized based on an adult population working in positions requiring mental operations that involve the manipulation of spatial information.

Rating Scale

For this report, the results are presented using the following rating scale :

Excellent 5	The candidate responds to the main aspects and criteria of the evaluation and his/her responses are appropriate. The candidate has surpassed expectations.
Very good 4	The candidate responds to most of the criteria of the evaluation and there were no major deficiencies noted for the aspects evaluated. The candidate demonstrated an above-average performance.
Good 3	Some of the main and secondary criteria of the evaluation were raised. The candidate demonstrates some minor deficiencies with regards to the evaluated criteria.
Weak 2	The candidate omits important aspects and criteria of the evaluation. The candidate presents some major deficiencies and is having problems.
Poor 1	The candidate omits most of the aspects that are evaluated and presents several major deficiencies. The candidate is incapable of responding or the answers are inappropriate.

Overall Result

The overall result represents the candidate's standardized score.
